Theo

“Products that put users first.

The offices of the executives are defined by meticulous order and reflection of their owners with sophisticated style. De Stijl art movement inspired Theo. This design embraces the essential geometric forms and simple lines, and utilizes the concept of 'harmony and order'. We materialized the intellectual profundity in the perfect lucidity of the clear forms and created autopia of harmony.”

Ece Yalim - Oğuz Yalim

Eternity

“Power, glory, trust.

Throughout human history, in most forms of government, castles have been built on high cliffs. This approach for security purposes also allowed the ability to view and control the city from above. Today, in the buildings known as cliff houses; With the need to create more special and high-level living spaces, we see an architecture that extends forward or upward on a foundation placed on rocks. In the light of this architectural information, we can overlap the words such as “power, grandeur, trust” represented by these structures with the concepts of “infinity without borders” at the same time. In today’s business life, “Infinity Concept” has been emphasized in order to express the position in the best way in the senior executive group furniture work to meet the needs of senior managers of companies.”

Fatih Aslantaş

Maki

“For extraordinary executives.

Maki interprets form and function at its most iconic and contemporary senses. Angular legs challenge the realities of statics and at the same time with their unique silhouettes offer an artistic approach to office furniture. Both stories are written for executives who aim to reflect the power and continuity in the business world. With its inspiring simplicity and fine details Maki casts a lasting impression in modern office.”

Farm Design

Grid

“Simple design, prestigious position.

Grid is designed for middle and senior executive offices; a collection that reflects the architectural integrity of the period. Contrary to its slender and simple lines, it carries the power and prestige it has. The large work surface, the electrification solutions on both sides and the functionality provided by the storage areas, fulfill all expectations of the user.”

Puzzle

Operational

“Puzzle gives you the chance to create your private space in heavily populated offices.

Puzzle is designed to meet all the needs of the office with its unique and multi-work areas, as well as the tray options with different forms.”

Runner

“Runner gives you the possibility of creating endless number of sitting arrangements.

Alliance of powers is crucial in work environments. Today in all fields of activity and expertise, office teams acting in concord to build and implement the ideas, finding the strength in unity. It may take endless number of meetings to reach an agreement. Different agendas require different seating arrangements, Runner series designed to foresee these placement scenarios.”

Utkan Kızıltuğ - Arif Akıllılar

Fishbone

“The Fishbone panel family has been developed to create private areas in workspaces. Its modular structure, which allows for countless combinations, can be added end-to-end in accordance with the area it will be used, providing flexible solutions. In open offices; it creates isolated workspaces that are free from distracting visual and audio problems and are suitable for focusing.”

Bistrodern

“Bistrodern focuses on the effects of the correct forms over employees.

Bistrodern embodies the modern lines of the past and future. Success in the corporate world comes from the combination of the many important aspects of the human life. The tangible forms of these desired aspects turn into real objects in indoor spaces where we spend most of our time and start to communicate with us. The subtle state of delight manifests itself when encountered with the correct objects, correct forms and correct positioning and leads our lives harmoniously with course of correct actions.”

Utkan Kızıltuğ - Arif Akıllılar

Levels

“Perfectly blending wood with leather, Levels allows managers to easily focus on the meeting.”

Levels provides a comfortable and convenient work environment for the strong leaders and managers focusing around a topic, opinion or presentation. The relationship between the components visually and functionally provides diversity in the product to meet different dimensions and needs. The combination of wood and metal sheet legs allows the combination of the naturalness of wood and leather material in different color alternatives. Measure differences in foot and in the pieces used in table top create a natural balance among themselves. The level differences between surfaces refer to the “Levels concept” which is set as the starting point in the design of the product.

Boss

“The design of boss reflects a new concept of balance and determination.

Professionals ascending in their careers in the business world achieve a lot through their determination and skill to keep various works in balance. Same qualities are also important in their image too, the motivation behind the design is to reflect these features.”

Utkan Kızıltuğ - Duygu Aslanel

Neva

“As little design as possible.

For me good design means minimal design. There was a single idea behind Neva's design, I wanted to make “a sofa”. I aimed to come up with image that would not wear off its novelty in time, keeping its charm constant and lasting. While drawing the first sketches, I always kept in mind that I was designing ‘a practical sofa’. These thoughts delivered authentic, plain and simple lines of Neva.”

Ender Yolcu

Stay

“Stay: a sofa for different, innovative and dynamic spaces.

The armchair of distinct and innovative spaces, Stay brings a sporty and dynamic atmosphere to your offices with soft mattress and cushions placed over a solid wood body. With a sense of design that does not compromise comfort, it creates the sense of power and prestige expected from an executive’s office.”

Duygu Aslanel - Utkan Kızıltuğ

Gilda

"A sofa for team work and cozy environments.

We were designing Gilda with notion to make a different product and it led us to the idea to minimize the massive look of straight lines. We developed the image further with soft cushions and curved lines."

Ece Yalim - Oğuz Yalim

Rast

**“ Modern appeal
meets the classical lines.**

I wanted to create a product that would offer a top-level comfort, so I designed a generous seating part with comfy back support cushions. Rast is a perfect sofa for those who cannot imagine modern and innovative office without classic beauty.”

Ender Yolcu

Hills

“Less is more.

Now we need a pure and simple environment more than ever. Purely rational spirit of Hills designed with the minimalist philosophy of “less is more” (Mies Van Der Rohe) changes our environment and our perception of design.”

Paratoner Design

Piet

“A chair with eclectic design to suit every office.

Piet sofa designed with spirit of handmade piece, to be different from ordinary items of mass production. This aspect of design highlighted by fine craftsmanship and handpicked quality material. We envisioned Piet to be a rarity chair in the furniture collection of executive office.”

Ece Yalım - Oğuz Yalım

Flat

“Waiting areas turn into a comfort center.

Flat airport bench is a comfort center that meets today’s needs. Meeting all user needs, Flat is designed for all public areas where waiting moments are important. The product, which has a suitable structure for the dynamics of architectural spaces with its strong construction and geometry, stands out with its hidden assembly details, elegance and sophisticated style. While different seat arrays offer numerous configuration alternatives in the space, they also provide the opportunity to add to existing products. The surface discharges in the backrest and seat fronts, which perfectly connected to each other, provide a flexible structure that increases comfort. The easy assembly structure that provides the advantage of on-site service creates continuity of use with parts replacement without completely disassembling the product.”

TABLO ARŞİVLEMENİN PRATİK YOLU DİKEY ÇEKMECELER

Etiketlik ve kulp

Kolay kullanımlı, az yer kaplayan, her ölçüsü ihtiyaca göre planlanarak üretilebilen dikey çekmeceli arşiv sistemi, iki taraflı kullanılabilen çelik kafes bölmeli olabileceği gibi, çift taraflı kullanılan raf sisteminde de üretilebilir. Derinliği ve çekmece genişliği size kalmış.

Müdehale Kapağı

Her bir çekmecesini, tercih edilen çekmece genişliğine bağlı sayıda tekerlekli üretilen öne doğru açılan dikey çekmeceli arşiv sistemleri, kolay açılır, kolay kapanır, kapandığında yerine tam oturur. Benzeri arşiv sistemleri gibi, altyapı ve ray sistemlerinin yer kaybını yaşatmaz.

Standart Ölçüler:

1 Çekmece 200 x 200 cm

Çift taraflı olarak 8m2'lik arşiv alanı sağlar.

Sistem istendiği takdirde alanın durumuna göre farklı ölçülerde imal edilebilir.
